

# About Us

---

Timeless Photography opened in Madison on March 13th of 2013 as a full service portrait studio.

Our emphasis is on you, the client, and telling your story in an image, as well as delivering a high quality product in which you would be proud to display for family and friends.

We have the capability to capture almost any moment, whether it's an in studio portrait with the family pet, a large sporting event with on-site viewing and printing, a photo booth, or even green screen work in or out of the studio.

Contact us to discuss your needs or stop in to check out the studio and say hello. We would love to meet you!
